

# HOW TO CO-EXIST - HUMAN AND ALIEN

A MANUAL FOR HUMANS AND ALIENS

I think the Home should be convenient for both.

The Human should <sup>understand</sup> how different the alien is and the Alien should understand how different the Human is.

Humans need to find a common means of communicating with aliens, and vice versa.

Be Patient with the <sup>yourselves</sup> the home should be able to accommodate both of you.

Don't try to be <sup>bad</sup> with Aliens, try to be good to <sup>them</sup> and keep them safely.

— Keep an open mind, mindful of each others differences

But stay respectful despite the differences

• Try to have the same communication languages.

The humans should learn from aliens. And vice versa.

• Make babies a new species

observe the needs of the other, do not force the other to behave like you accept and tolerate
